
HAIR TRANSPLANT SURGERY

Cost For Hair Transplant

The cost for your hair transplant will depend on the method of hair transplantation chosen and the number of grafts that you require for your procedure to deliver your desired results. Our highly experienced doctors will discuss these factors in detail during your consultation.

The Knudsen Clinic current cost schedule is shown within this section. We offer both FUT utilising the strip method for donor site extraction and FUE using the latest in robotic technology for the donor site harvesting. During your consultation you will be informed of both techniques and given the information to make an educated decision.

All prices listed are fully inclusive of GST.

Regardless of the technique used, hair transplantation surgery for male pattern baldness is regarded as cosmetic surgery and therefore the cost is subject to GST.

Some hair loss conditions suitable for surgery may attract a Medicare rebate and are NOT subject to GST.

Feel free to call us to discuss an introductory consultation during which we will discuss your hair transplant surgery and the cost of hair transplant.

Cost for FUT (Strip) Hair Transplant Surgery

Cost for Hair Transplant using Follicular Unit Transplantation with a strip of hair-bearing skin from the back of the scalp (FUT strip)

Regardless of the technique used, hair transplantation surgery for male pattern baldness is regarded as cosmetic surgery and therefore the cost is subject to GST. Some hair loss conditions suitable for surgery may attract a Medicare rebate and are NOT subject to GST.

Feel free to call us to discuss an introductory consultation during which we will discuss your hair transplant surgery and the cost of hair transplant.

Cost for FUE (ARTAS) Hair Transplant Surgery

Cost for Hair Transplant using Follicular Unit Extraction with the ARTAS Robotic Hair Transplant System

Regardless of the technique used, hair transplantation surgery for male pattern baldness is regarded as cosmetic surgery and therefore the cost is subject to GST. Some hair loss conditions suitable for surgery may attract a Medicare rebate and are NOT subject to GST.

Feel free to call us to discuss an introductory consultation during which we will discuss your hair transplant surgery and the cost of hair transplant.

The Knudsen clinic was established in 1984 by Dr Russell Knudsen MBBS, FFMACCS, FISHRS. Dr Knudsen's aim was to offer patients treatment for hair loss that is effective, undetectable, affordable and based on scientific research. He has achieved his goal and has clinics in Canberra, Brisbane, Melbourne, Sydney and Auckland New Zealand and has performed over 6000 hair transplants over 30 years of business. The Knudsen Clinic is world renowned as a leader in hair restoration, hair transplantation and the treatment of all types of hair loss.

Hair loss treatments includes hairline lowering, scarring hair loss from any cause, alopecia and eyebrow transplants. Our website offers unbiased, straightforward information and gives you the opportunity to contact Dr Knudsen directly for advice on hair loss treatment for you.
